CONFIDENTIAL - FOR INTERNAL USE ONLY

1. 30-Second TL;DR

- The Consumer & Retail sector is experiencing mixed sentiment due to economic pressures and changing consumer preferences.
- Key subsectors like Consumer Staples and E-commerce show resilience, while Consumer Discretionary faces challenges.
- Current trading multiples include EV/EBITDA of 15.2x for Consumer Staples and 18.9x for E-commerce.
- Digital transformation and sustainable practices are driving growth, but inflation and supply chain issues pose risks.

2. 1-Minute TL;DR

- The Consumer & Retail sector is navigating a complex landscape marked by mixed sentiment, influenced by inflation and evolving consumer behaviors.
- Consumer Staples remain strong with an EV/EBITDA of 15.2x, while E-commerce leads at 18.9x, reflecting robust demand.
- Digital transformation is a key driver, with companies like Amazon enhancing omnichannel capabilities.
- However, economic uncertainty and supply chain disruptions present significant headwinds, particularly for Consumer Discretionary.
- Investors are advised to focus on high-growth areas and monitor consumer trends to identify risks and opportunities.

3. 2-Minute TL;DR

- The Consumer & Retail sector is currently facing mixed sentiment due to economic pressures like inflation and supply chain disruptions. While some subsectors, such as Consumer Staples, show

APAC Consumer Sector

resilience with an EV/EBITDA multiple of 15.2x, others like Consumer Discretionary are adapting to new consumer behaviors.

- E-commerce is thriving, boasting an EV/EBITDA of 18.9x, driven by digital transformation and innovations in customer engagement. Companies like Amazon are acquiring technology assets to enhance their omnichannel capabilities.

- The luxury goods market is also resilient, with brands adopting sustainable practices to attract eco-conscious consumers. However, challenges remain, particularly in traditional retail sectors.

- Analysts express cautious optimism about the long-term outlook, emphasizing the importance of digital transformation. Investors should prioritize sectors with high growth potential, such as e-commerce, while being mindful of economic uncertainties and changing consumer preferences.

- The banking pipeline reflects strong demand for advisory services in these areas, with notable deals in progress, including Amazon's strategic partnership and Nike's digital transformation initiatives. Overall, the sector presents significant opportunities for value creation through strategic M&A and digital innovation.
