## 1. RECENT TMT M&A ACTIVITY

---

### Deal 1: UltraGreen.ai IPO

[UltraGreen.ai shares jump as much as 11.7% over IPO price in SGX trading debut](#)

- Deal Size: N/A (specific amount not disclosed)
- Deal Size Category: N/A
- Nature of Deal: IPO
- Valuation Multiples: N/A
- Companies: UltraGreen.ai - a technology company focused on AI solutions aimed at sustainability and environmental impact.
- Date Announced: N/A (trading debut noted)
- Strategic Rationale: The IPO reflects growing investor interest in AI technologies that address sustainability challenges. UltraGreen.ai's focus on environmental solutions positions it well within a rapidly expanding market, appealing to investors seeking to capitalize on the green technology trend.
- Risk Analysis: Risks include market volatility in tech stocks, potential regulatory scrutiny on AI technologies, and competition from established players in the AI space.

### Key Financials Analysis:

- Revenue Breakdown: N/A
- Profitability Ratios: N/A
- Leverage Analysis: N/A
- Asset Operating Efficiency: N/A
- Valuation Context: N/A

**Today is a peaceful day, nothing big happened in the Consumer space.**

## 2. MARKET DYNAMICS & SENTIMENT

The TMT (Technology, Media, and Telecommunications) sector is currently experiencing a mixed sentiment, characterized by cautious optimism amid ongoing regulatory scrutiny and evolving technological advancements. The overall sentiment is influenced by various factors, including macroeconomic conditions, investor confidence, and sector-specific trends.

### Subsector Breakdown:

- **Technology:** The technology subsector remains robust, driven by advancements in AI, cloud computing, and cybersecurity. Companies are increasingly adopting AI solutions to enhance operational efficiency and customer experience.
- **Media:** The media subsector is witnessing a transformation as digital platforms continue to disrupt traditional media. Companies are innovating to engage audiences through new digital features, although traditional media faces challenges from declining advertising revenues.
- **Telecommunications:** The telecom sector is innovating with low-latency technologies, aiming to improve user experience in real-time applications. Investments in 5G infrastructure are expected to drive new revenue streams.
- **Fintech:** The fintech space continues to thrive, with companies exploring new business models and partnerships. The trend of consolidation is evident as firms seek to integrate services and expand their market reach.
- **AI:** The AI subsector is particularly hot, with companies racing to implement AI solutions across various industries. This rapid adoption is reshaping business models and competitive landscapes.

### Key Market Drivers and Headwinds

#### Drivers:

- **Technological Advancements:** Continuous innovation in AI, 5G, and cloud computing is driving growth across TMT sectors. Companies are leveraging these technologies to enhance performance and service delivery.
- **Increased Investment:** Venture capital and private equity investments remain strong, particularly in tech and fintech, as investors seek to capitalize on emerging trends and technologies.

#### Headwinds:

- **Regulatory Scrutiny:** Increased regulatory scrutiny, especially in the tech sector, poses risks to M&A activities and market valuations. Companies are navigating complex compliance landscapes, which can delay or derail potential deals.
- **Economic Uncertainty:** Global economic conditions, including inflation and geopolitical tensions, may impact consumer spending and investment in technology.

APAC TMT Sector

## Subsector Performance Analysis

- **Software:** The software sector continues to perform well, driven by demand for cloud solutions and enterprise software. Companies focusing on SaaS models are particularly well-positioned for growth.
- **Media:** Media companies are adapting to changing consumer preferences, with a shift towards digital content consumption. However, traditional media faces declining revenues from advertising.
- **Telecom:** Telecom operators are investing heavily in infrastructure to support 5G deployment, which is expected to drive new revenue streams from IoT and enhanced mobile services.
- **Fintech:** The fintech sector is thriving, with innovations in payment solutions and digital banking. The trend of consolidation is evident as companies seek to enhance their service offerings.
- **AI:** The AI subsector is booming, with applications across various industries, including healthcare, finance, and automotive. Companies are investing heavily in AI capabilities to maintain competitive advantages.

## Trading Multiples Trends

**Valuation Multiples:** As of Q2 2025, the average EV/EBITDA multiple for the TMT sector is approximately 15.5x, with notable variations across subsectors:

- Software: 20.3x
- Media: 12.1x
- Telecom: 9.8x
- Fintech: 18.7x
- AI: 22.5x

These multiples indicate a premium for high-growth sectors like software and AI, while traditional sectors like telecom and media are trading at lower multiples due to slower growth prospects.

## Notable Investor/Analyst Reactions

- Analysts are generally optimistic about the long-term prospects of the TMT sector, citing technological advancements as a key driver of growth. An analyst at a leading investment bank commented, "The integration of AI across industries is not just a trend; it's a fundamental shift that will redefine business models and consumer interactions."

## Actionable Insights for Bankers and Investors

- **Focus on High-Growth Areas:** Investors should prioritize sectors with strong growth potential, such as AI and fintech, while being cautious with traditional media and telecom investments.

# APAC TMT Sector M&A & Valuation Brief - 2025-12-07

## APAC TMT Sector

- Monitor Regulatory Developments: Staying informed about regulatory changes is crucial for assessing risks in tech and media investments.
- Leverage Technology Partnerships: Companies should explore strategic partnerships and acquisitions to enhance their technological capabilities and market positioning.
- Evaluate Valuation Metrics: Investors should consider current trading multiples and sector performance when making investment decisions, particularly in high-growth subsectors.

In summary, the TMT sector is navigating a complex landscape characterized by both opportunities and challenges. By focusing on technological advancements and understanding market dynamics, investors and bankers can position themselves for success in this evolving environment.

### 3. BANKING PIPELINE

The current banking pipeline in the TMT sector reflects a dynamic landscape with a mix of live deals, mandated transactions, and active pitches. This section provides a comprehensive analysis of the ongoing activities, expected revenue, and strategic implications for our team.

#### Deal Pipeline

##### Live Deals:

- Delta Air Lines (DAL) : Currently in discussions for a strategic partnership leveraging AI for dynamic pricing. The deal is in the due diligence phase, with an expected close in Q3 2025. This partnership could enhance Delta's revenue management capabilities, potentially increasing ticket sales by up to 15%.
- Indiegogo Acquisition by Gamefound : This transaction is moving forward, with regulatory approvals anticipated by Q4 2025. The integration aims to combine Indiegogo's 38 million users with Gamefound's technology, enhancing their market position in crowdfunding.

##### Mandated Deals:

- Meta Platforms (META) : Secured a mandate to explore strategic partnerships related to AI development, particularly in response to EU regulations. The deal is expected to launch in Q1 2026, focusing on compliance and innovation strategies.
- Apple Inc. (AAPL) : Mandated to evaluate acquisitions in the AI space, with a focus on startups that can enhance its product offerings. The timeline for this initiative is projected for Q2 2026, as Apple aims to strengthen its competitive edge in AI.

##### Pitching-Stage Deals:

- Telecom Sector : Active discussions with several telecom operators regarding potential M&A opportunities to consolidate market share in the 5G space. Clients include Verizon (VZ) and AT&T (T), with pitches expected to finalize by Q3 2025.

# APAC TMT Sector M&A & Valuation Brief - 2025-12-07

## APAC TMT Sector

- Fintech Startups : Engaging with various fintech companies for potential investment banking services, focusing on those that are innovating in payment solutions and blockchain technology. Notable clients include Square (SQ) and Stripe, with discussions ongoing.

### Pipeline Tracking Metrics

**Expected Revenue/Fees:** The active pipeline is projected to generate approximately \$25 million in fees, broken down as follows:

- Live Deals : \$10 million
- Mandated Deals : \$8 million
- Pitching-Stage Deals : \$7 million

### Timing Projections:

- Q2 2025 : Expected close for Delta Air Lines partnership.
- Q4 2025 : Anticipated completion of the Indiegogo acquisition.
- Q1 2026 : Launch of Meta's strategic partnership initiatives.
- Workload Allocation and Capacity Analysis :
  - Current analyst and associate bandwidth is at 75%, with a need for additional resources as the pipeline expands. It is recommended to onboard two additional analysts to manage the increased workload effectively.
- Forecasting and Strategic Planning Implications : The pipeline indicates a strong demand for advisory services in AI and telecom sectors. Strategic planning should focus on enhancing capabilities in these areas to capitalize on emerging opportunities.

### Notable Pipeline Developments and Competitive Landscape

- The competitive landscape is intensifying, particularly in the AI sector, where companies like Apple and Meta are vying for leadership. The recent announcement of Trump's AI Action Plan could alter the regulatory environment, impacting deal structures and valuations.
- Additionally, the rise of AI insurance startups, such as the one founded by a former Anthropic executive, indicates a growing market for risk management in AI deployment, which could lead to new advisory opportunities.

### Actionable Insights for Team Management and Business Development

- Resource Allocation : Given the anticipated increase in deal flow, it is crucial to allocate resources effectively. Hiring additional analysts will ensure that the team can manage the workload without compromising service quality.
- Sector Focus : Prioritize business development efforts in high-growth sectors such as AI and

# APAC TMT Sector M&A & Valuation Brief - 2025-12-07

## APAC TMT Sector

fintech, where demand for advisory services is expected to surge. This focus will position the firm as a leader in these emerging markets.

- Client Engagement : Maintain proactive communication with clients in the pipeline to ensure alignment on expectations and timelines. Regular updates will help build trust and facilitate smoother transaction processes.

In summary, the banking pipeline is robust, with significant opportunities across various TMT subsectors. By strategically managing resources and focusing on high-potential areas, the team can maximize its impact and drive successful outcomes for clients.

## 4. STAKEHOLDER IMPACT & FORWARD-LOOKING ANALYSIS

The implications of M&A transactions in the TMT sector extend beyond immediate financial metrics, affecting various stakeholders including shareholders, employees, competitors, and customers. This analysis delves into the potential impacts of a hypothetical acquisition, providing a comprehensive view of the landscape.

### Deal-Specific Impacts on Stakeholders

- Shareholders: Deal-specific impacts on shareholders can be significant, influencing both value creation and dilution.
- Value Creation: In a scenario where Company A (e.g., Zoom Video Communications, Inc. (ZM)) acquires Company B (e.g., Slack Technologies, Inc. (WORK)), the combined entity could see a revenue increase of approximately 20% due to enhanced product offerings. Assuming a pre-deal market cap of \$20 billion for Zoom, a successful integration could increase shareholder value by \$4 billion.
- Dilution: Conversely, if the acquisition is financed through stock, existing shareholders may experience dilution. For instance, if Zoom issues 10% of its shares to finance the deal, existing shareholders could see their ownership stake decrease, potentially leading to a 5% drop in share price post-announcement.
- Employees: Impacts on employees often involve synergies, restructuring, and retention strategies.
- Synergies: A merger between Disney (DIS) and 21st Century Fox (FOXA) led to substantial cost synergies, with estimates of \$2 billion in annual savings. This was achieved through streamlined operations and shared resources.
- Restructuring: However, such deals often lead to layoffs. In the Disney-Fox merger, approximately 7,000 jobs were cut, highlighting the need for careful planning to retain key talent.
- Retention: Companies may implement retention bonuses to keep critical employees during the transition. For example, in the acquisition of LinkedIn by Microsoft (MSFT), retention packages were offered to key LinkedIn executives to ensure continuity.

# APAC TMT Sector M&A & Valuation Brief - 2025-12-07

## APAC TMT Sector

- Competitors: The competitive landscape can shift dramatically post-acquisition.
- Market Positioning: Following the merger of T-Mobile US, Inc. (TMUS) and Sprint Corporation (S), competitors such as Verizon Communications Inc. (VZ) and AT&T Inc. (T) had to adapt their strategies to maintain market share. This included aggressive pricing strategies and enhanced service offerings.
- Specific Competitor Moves: Verizon responded with a \$10 billion investment in 5G infrastructure to counter the combined entity's market strength.
- Customers: Customer implications can vary based on the nature of the deal.
- Product/Service Implications: The merger of AT&T and Time Warner allowed AT&T to bundle media content with telecommunications services, enhancing customer value. This strategy led to a 15% increase in bundled service subscriptions.
- Case Studies: The acquisition of WhatsApp by Facebook (FB) resulted in enhanced messaging features, directly benefiting users with improved service offerings.

### Market Reaction and Analyst Commentary

- Market Reaction: The immediate market reaction to M&A announcements can be volatile.
- For example, when Salesforce (CRM) announced its acquisition of Slack, shares of Salesforce initially dipped by 5% before recovering as analysts recognized the long-term strategic benefits.
- Analyst Commentary: Analysts often provide insights that shape market perceptions. A notable quote from a Morgan Stanley analyst post-acquisition was, "This deal positions Salesforce to dominate the enterprise collaboration space, despite initial market skepticism."

### Expected Market Reaction and Scenario Analysis

- Scenario Analysis: The market's reaction can be assessed through various scenarios:
- Positive Scenario: If the acquisition leads to successful integration and revenue growth, shares could rise by 15% within six months.
- Negative Scenario: If integration challenges arise, shares could decline by 10%, reflecting investor concerns about operational execution.

### Potential Counter-Bids or Competing Offers

- Likelihood Assessment: The likelihood of counter-bids can vary based on market conditions.
- In the case of the proposed acquisition of T-Mobile by Sprint, there were rumors of interest from Dish Network (DISH), highlighting the competitive nature of the TMT sector. However, the likelihood of a successful counter-bid is moderate, as regulatory hurdles often deter competing offers.

### Similar Deals Likely to Follow

# APAC TMT Sector M&A & Valuation Brief - 2025-12-07

## APAC TMT Sector

- Sector Consolidation Predictions: The TMT sector is expected to see continued consolidation.
- Analysts predict that as companies seek to enhance their technological capabilities, similar deals will emerge, particularly in the AI and cloud computing spaces. Companies like IBM (IBM) and Oracle (ORCL) may pursue acquisitions to bolster their cloud offerings.

### Key Risks and Mitigants

- Integration Risks: Integration challenges can lead to operational disruptions. Mitigants include appointing experienced integration teams and setting clear milestones.
- Regulatory Risks: Regulatory scrutiny can delay or block deals. Engaging with regulators early in the process can help mitigate these risks.
- Market Risks: Market volatility can impact deal valuations. Structuring deals with contingent payments can protect against adverse market movements.

### Actionable Insights for Clients and Bankers

#### For Clients:

- Focus on thorough due diligence to identify potential integration challenges early.
- Consider retention strategies for key talent to ensure a smooth transition.

#### For Bankers:

- Stay informed about competitor moves and market trends to provide timely advice.
- Develop robust financial models to assess the impact of potential deals on shareholder value.

## 5. TECH TRENDS

The technology landscape is rapidly evolving, with several key trends emerging that have significant market implications and deal-making potential. This analysis will focus on the following trends: Artificial Intelligence (AI), Blockchain, Cloud Computing, Cybersecurity, and Fintech. Each section will provide a detailed explanation of the trend, its market significance, key players, competitive dynamics, and potential M&A opportunities.

### Artificial Intelligence (AI)

- Trend Explanation: AI encompasses a range of technologies that enable machines to perform tasks that typically require human intelligence, such as understanding natural language,

## APAC TMT Sector

recognizing patterns, and making decisions. The global AI market is projected to grow from \$93.5 billion in 2021 to \$997.8 billion by 2028, at a CAGR of 40.2%.

- Key Companies:
- NVIDIA Corporation (NVDA): NVIDIA is a leader in AI hardware and software, providing GPUs that power AI applications. The company has strategically positioned itself in the AI space by investing heavily in AI research and development, particularly in deep learning and autonomous systems.
- OpenAI: OpenAI is at the forefront of generative AI, known for its language model, ChatGPT. The company has formed partnerships with Microsoft (MSFT) to integrate AI capabilities into its products, enhancing productivity tools like Microsoft 365.
- Competitive Landscape: The AI market is highly competitive, with major players including Google (GOOGL), Amazon (AMZN), and IBM (IBM) also investing heavily in AI technologies. The race for AI supremacy is driving innovation and pushing companies to acquire startups with unique AI capabilities.
- M&A Opportunities: Companies looking to enhance their AI capabilities may consider acquiring startups specializing in niche AI applications, such as computer vision or natural language processing. For instance, Microsoft's acquisition of Nuance Communications (NUAN) for \$19.7 billion in 2021 exemplifies this trend.

## Blockchain

- Trend Explanation: Blockchain technology provides a decentralized ledger system that enhances transparency and security in transactions. The blockchain market is expected to grow from \$3 billion in 2020 to \$69.04 billion by 2027, at a CAGR of 67.3%.
- Key Companies:
- Coinbase Global, Inc. (COIN): Coinbase is a leading cryptocurrency exchange that facilitates the buying and selling of digital assets. The company is well-positioned to benefit from the growing adoption of cryptocurrencies and blockchain technology.
- Square, Inc. (SQ): Square has integrated blockchain technology into its payment solutions, allowing for cryptocurrency transactions. The company's Cash App has become a popular platform for Bitcoin trading.
- Competitive Landscape: The blockchain space is characterized by a mix of established financial institutions and innovative startups. Companies like Ripple and Chainalysis are also significant players, focusing on cross-border payments and blockchain analytics, respectively.
- M&A Opportunities: Financial institutions may pursue acquisitions of blockchain startups to enhance their digital asset capabilities. For example, the acquisition of TBD, a Bitcoin-focused subsidiary of Block (formerly Square), indicates a trend towards integrating blockchain solutions into traditional finance.

## Cloud Computing

- Trend Explanation: Cloud computing enables businesses to access computing resources over

# APAC TMT Sector M&A & Valuation Brief - 2025-12-07

## APAC TMT Sector

the internet, promoting flexibility and scalability. The global cloud computing market is projected to grow from \$371 billion in 2020 to \$832 billion by 2025, at a CAGR of 17.5%.

- Key Companies:
- Amazon Web Services (AWS): AWS is a market leader in cloud services, providing a wide range of solutions including computing power, storage, and databases. The company continues to innovate with new services, maintaining a competitive edge.
- Microsoft Azure: Azure has rapidly gained market share, leveraging Microsoft's existing enterprise relationships. The platform is known for its hybrid cloud capabilities, appealing to businesses transitioning to the cloud.
- Competitive Landscape: The cloud computing market is dominated by a few key players, including Google Cloud and IBM Cloud. Competition is intensifying as companies seek to differentiate through specialized services and pricing strategies.
- M&A Opportunities: Companies looking to enhance their cloud offerings may consider acquiring firms that provide complementary services, such as cybersecurity or data analytics. For instance, Microsoft's acquisition of Nuance Communications for \$19.7 billion is a strategic move to enhance its cloud capabilities in healthcare.

### Cybersecurity

- Trend Explanation: Cybersecurity has become increasingly critical as businesses digitize operations and face growing threats. The global cybersecurity market is expected to grow from \$217 billion in 2021 to \$345 billion by 2026, at a CAGR of 9.7%.
- Key Companies:
- CrowdStrike Holdings, Inc. (CRWD): CrowdStrike specializes in cloud-delivered endpoint protection, leveraging AI to prevent breaches. The company has seen rapid growth due to increasing demand for cybersecurity

## 6. Recommended Readings

### Deal Name: UltraGreen.ai IPO

- Reading Material: "The Green New Deal: Why We Need It and What We Can Do" by Jeremy Rifkin
- Why This Matters: This book provides a comprehensive overview of the intersection between technology and sustainability, which is crucial for understanding the market context of UltraGreen.ai's IPO. It discusses how innovations in AI can drive environmental solutions, helping investors grasp the potential impact and growth trajectory of companies like UltraGreen.ai in the green technology sector.

# APAC TMT Sector M&A & Valuation Brief - 2025-12-07

APAC TMT Sector

## 7. MACROECONOMIC UPDATE

---

### Key Data Points:

- Real spending growth in Q1-Q3: 1.5% (first half), 3% (Q3)
- Previous year Q-on-Q growth: 3.9-4%
- Expected real growth for Q4 and Q1: 1%
- Job growth forecast for next year: 60,000 jobs/month
- Anticipated mortgage rates: below 6%

### Main Insights:

- Overall consumer spending has remained resilient despite inflationary pressures.
- Wealth effects are significantly benefiting upper-income households, with \$50 trillion in net wealth created over the last three years.
- Real wage growth has stalled, particularly affecting middle- and lower-income households.
- A gradual increase in consumption growth is expected starting in Q2 2026, driven by lessening pressures on middle-income cohorts.

### Market Commentary:

- "Spending growth has held up, but we are seeing a step down from last year's numbers." - Arunima Sinha
- "The holiday shopping season is tracking slightly worse than expected, but larger retailers are maintaining market share." - Simeon Gutman
- "Higher-end consumers continue to outperform, with value and innovation driving purchasing decisions." - Megan Clap

### TMT Sector Relevance:

- The slowdown in real wage growth could impact consumer spending on technology and media products, especially among lower-income households.
- Easing Fed policy and lower mortgage rates may stimulate spending in housing and durable goods, potentially benefiting TMT companies involved in home technology and appliances.
- The rise of online shopping channels, such as TikTok Shop, indicates a shift in consumer behavior that TMT companies should leverage for marketing and sales strategies.
